### outdoor playing surfaces

.....

The main playing surface is called Morella Oval and was established under the careful guidance and direction of world-renowned turf specialist, Les Burdett.

It is an exceptional playing surface with an area of 165m x 125m, comparable with stadiums utilised by the Australian Football League throughout the nation.

The oval has a couch and rye turf surface which is capable of draining at a rate of 50mm per hour. This is made possible through a special blend of base soil laid beneath the turf to avoid water sitting on the surface for any period of time.

Morella Oval is maintained to a very high standard and is kept in a state of readiness for any suitable function. It is able to accommodate many sporting requirements falling under the categories of ball sports and athletics.

It has also been utilised as a temporary campground and as a country fair site. Parking is very close by with a sealed car park on one side of the oval and open field parking on the other. All activities on the oval can be observed closely from fully grassed perimeter locations.
