performing arts theatre

.....

The performing arts theatre is located in the building called 'Atelier'. It is a large flexible space capable of seating 208 on the fixed tiered seating with further capacity to accommodate another 40 free-standing chairs. It has a space measuring 8m x 16m and has a cyclorama for digital projection.

The digital projector is a Mitsubishi WL6700U with DVI, RCA, VGA and S-Video inputs in a control room and a VGA (and audio) patch point in the stage floor.

Audio and visual technicians are able to enjoy a dedicated control room featuring a versatile audio system using industry standard equipment from Shure, AKG and Yamaha. This provides a capacity to support a wide range of functions whether its utilising a single hands free microphone or going all the way through to a multichannel large production.

The lighting equipment is also designed to be user friendly and industry standard with up to 48 channels featuring quality equipment from Selecon and LSC to provide Wash, Spots, various effects and Cyclorama lighting. This makes the facility a suitable venue for a broad number of production styles including theatrical, dance or even a corporate presentation.

Adjacent to the theatre is two dressing rooms, a green room, toilet/shower amenities, kitchenette and ticket box. A lift is also installed for access between the upper and lower floors. There is loading access at the theatre floor level.

The theatre is a professionally designed space also suitable for lectures, presentations, product launches and large group meetings.
